He says that the Lawrence property has only encountered an eight-foot ledge in the drift on the 80-foot level gives good returns. The Lettiple are drifting on the Shasta and have a ledge which will from \$40 to \$70. Nearly all the parties in that district have entered good ore and before long is expected that several shipments will be made.

THE MEANING OF THE SCHOOL LAW

Carson City, March 31, 1908. Census Marshal—I notice in the papers that some of the school census marshals have difficulty in understanding the law regarding the matter of school census. I have looked the matter up and find that the census bill is correctly copied, but the enrolling clerk left off a part from Sec. 62, part 5, (Statutes of Nevada, 1907, page 294); also omitted School Law of 1907, page Sec. 5, part 5.

The engrossed copy is as follows, Sec. 62, part 5: "The total number of children less than six years of age; the total number of children over six years of age; and the total number of children over eighteen years of age; and the total number of children over twenty years of age, counting from the first day of April. Only those children who are less than six years of age, eighteen years of age shall be considered as school census children."

Will you please publish the above that school census marshals will have no difficulty in understanding meaning of the law.

Respectfully,
ORVIS RING,
Supt. of Public Instruction.

AVERS COMPANY IS RANK SWINDLE

OAKLAND, April 13.—Charges that the Columbia-Mohawk Mining and Leasing Company had fleeced the people of this State out of thousands of dollars were made by Attorney George F. Curtis in Judge Melvin's court today during the hearing of a petition for a writ of mandamus to secure possession of the books of the concern. Henry Russ, who said he was a stockholder, filed the petition after he had made numerous unsuccessful attempts to find the books and had failed even to locate the main office of the company, according to his petition.

The filing of the petition was followed by a general scurrying to cover of all directors and officials of the concern. Curtis said, and P. N. Berlinger, who held the office of secretary, who was defendant in the petition, promptly filed an affidavit to the effect that he had several times tendered his resignation and had had no notice taken of it by the heads of the concern. His duties had been perfunctory at all times, he said, and had consisted largely in sending out calls for directors' meetings, which nobody attended.

Curtis included a charge that the prospectus of the company, which had been largely circulated, contained names of persons who were represented as capitalists, and who in reality were not capitalists, and whose names had been used without their consent or knowledge. Adolphi Roland was one of those who testified that he was no capitalist and knew nothing of the company until he learned that his name had been used.

Barton Pittman admitted he was a director and that the company sold shares for many thousands of dollars, but he disclaimed any knowledge of the financial transactions of the company, and also said he did not know a cash book from a ledger. Berlinger testified that he had none of the books, but he believed they were in possession of E. R. Marriott of Los Angeles. Judge Melvin ordered a subpoena for Marriott to bring the books into court with him in one week, when the matter will be taken up again.

"This Columbia-Mohawk Mining and Leasing Company is a fake," said Curtis, after the close of the hearing. "To the best of my knowledge it has a claim in Goldfield, which originally cost \$400, and on which they issued \$1,000,000 worth of stock. They sold this stock to a wealthy merchant in Eureka, to persons in the revenue service and to intelligent people in nearly every part of the State. The stock is worthless, and State Mineralogist Aubrey has written District Attorney Langdon of San Francisco, urging him to bring the operations of this concern before the Grand Jury. Pittman has been arrested and is now out on bail on a charge of embezzling money from John M. Overt, a ticket agent at Carson City. Other arrests may follow, as I have many clients who say they have been swindled, and there seems to be slight recourse for them in a civil action."

EXPLOSION OCCURS LAST EVENING

AIR PIPE IN MIZPAH SHAFT BURSTS WITH DEAFENING NOISE.

With a muffled roar that could be heard for miles, the air pipe on the 300-foot level at the Mizpah mine burst last night at about 7 o'clock and sent a cloud of dust nearly a hundred feet in the air. From a distance the dust looked like smoke and many people were of the impression that the powder magazine of the mine had exploded, and inside of twenty minutes there were about a thousand people at the mine. General Manager Keith and Superintendent Blackburn immediately went down the mine to investigate the matter and when they returned to the top and reported that no one was injured, a sigh of relief was breathed by every one present, including many wives of the miners employed on the night shift, who were present. The explosion caused a slight break in one of the shafts and it will be several days before it will be repaired. Alec McDonald, who was employed several hundred feet from the place where the pipe burst, was knocked over by the force of the escaping air, but was not injured.

GREAT PROGRAM AT THE BUTLER

The Butler produced a great program last evening, and one that was enjoyed by everyone. The opening song, "Mighty Lak a Rose," by Miss Emmett, was exceptionally good and well rendered. The first film, "The Last Cartridge," is a picture that is well worth the price of admission alone. It represents a battle in progress and shows how the day was won by a young girl, who had a lover in the battle. Though she struggled against great odds, she kept courage and consequently won. The illustrated song, "Good-bye Dixie Dear," by Billy Walker, was very good. This song has a catchy air to it that pleases everyone. The next film, "Hunting Above the Clouds," is a view of hunters in Switzerland, going up the steep mountains to hunt. They have a very difficult time, but finally succeed in landing a chamois. The trip home is over a very rough country and in the return the scenery shown is very beautiful. "Dummy Love Song," by Miss Emmett, follows next, and she is heartily endorsed. "The Affair" is a picture of the hard times a young lover and his sweetheart have to see each other. The old saying "Where there's a will," is very much in evidence in this picture, and finally father gives his consent and all is well. "Take Me With You in Your Dreams," is a very pretty song and calls for much applause. The illustrations are exceptionally good and it is well rendered. The last picture, "Energizer," is a view of a breakfast food that should be taken by everyone inclined to have that tired feeling. It is used with great success by the lady of the household on her husband and the servants. She also tries it on a hobo who happens to be passing and it acts with marvelous rapidity. Tonight the pictures of the Gans-Nelson fight at Goldfield will be shown. Only one performance will be given on account of the length of the show. There will be nothing in this performance but what will be of the best, and the ladies are cordially invited to attend also.

GREAT FUTURE FOR RAWHIDE

P. McCARVILL BRINGS GLOWING REPORT OF THE CAMP.

P. McCarvill, who is interested in several properties at Rawhide, came in from that place yesterday. Mr. McCarvill is a mining man of considerable experience and is a firm believer in the future of Rawhide. In speaking of the camp he said:

"I have been in every mining excitement in the West, and Rawhide beats them all. In a new camp the development of the mines is naturally slow, but Rawhide, when it comes to work, has everything faded. For there are now fourteen hoists running and a number more being installed. A new strike has been made on the Bushwhacker property, and with the strike of Tex Rickard, everybody is enthused."

Mr. McCarvill had a sample of ore from the Kearns No. 2 with him that would assay about \$60 per pound. When enroute from Mina he was offered \$120 for it by a prominent mining man, who wished to place it in a cabinet.

GRAND JURY IS AGAIN IN SESSION

The Grand Jury was in session yesterday and was again working on the State Bank and Trust Company affairs. James T. Davis, cashier of the State Bank and located at Carson, and E. B. Cushman, cashier of the local bank, had both been subpoenaed and appeared before the inquisitorial body.
